Skills

Languages: HTML | CSS | React| JavaScript | C#
Databases: MySQL

Experience

MEST - Accra | Junior Web Developer (Frontend) | 09/2024 – 11/2024
- Interned with CoreExtreme Cameroun to build the frontend of a wholesale distribution web app.
- Gained knowledge and experience with frontend web development tools including Html, CSS, React and Javascript.

CalBank - Tarkwa | Operations Officer NSS Personnel | 11/2023 – 06/2024
- Enhanced branch performance by hitting monthly targets for sales of bank e-products.
- Contributed to bank's revenue by encouraging new and existing customers to make and retain cash deposits, bringing in a total of over 100,000 Ghana cedis.

Toyota Ghana Company Limited - Tarkwa | System Admin Intern | 10/2022 – 12/2022
- Decreased branch downtime significantly by rerouting and reconfiguring routers and cables during network failure.
- Improved turn-around time in serving customers by swiftly responding to and solving hardware issues.

Projects

- barkboxgh.netlify.app/
  An online booking system for dog owners to easily find and book appointments with vets, groomers and trainers near them.

Education

BSc in Computer Science and Engineering | Completed: 11/2023
University of Mines and Technology
